VOL. VII. NO. 1.

SANTA ANA, CALIFORNIA, MONDAY EVENING, NOVEMBER 27, 1911.

50 CENTS PER MONTH

B.G. MAJORITY VOTES FOR DRY

Fifth District Turns Down Saloons By a Vote of 678 to 110

FULLERTON CITY
STOOD 540 TO 109

Wiley Election Law Puts Illegal Liquor Selling in High Misdemeanor Class

Precinct	Yes	No
Tustin	10	390
Newport	16	129
El Toro	11	31
San Juan	55	35
San Joaquin	19	34
Trabuco	1	14
Laguna	4	14
Delhi	3	35
Total	110	682
Fullerton City	109	540

By a vote of 682 dry and 110 wet, the Fifth supervisorial district, not including the portions of Santa Ana and Newport Beach lying in the district, stays dry.

By a vote of 540 dry and 109 wet, the city of Fullerton stays dry.

Saturday's elections in this county were overwhelmingly victories for the opponents of the saloon. In the Fifth district the defeat was six to one, and at Fullerton five to one. It was the women's first opportunity to vote in this county, and the proportion of women registered who voted was fully up to the proportion of men. In Tustin the proportion was greater. There were 400 ballots cast in Tustin, and 199 were by women and 201 by men. Tustin's sentiment was expressed in no uncertain terms, 390 dry and 10 wet.

Out of the eight precincts that voted upon the question in the Fifth district, all but San Juan cast big majorities against the change to a wet district. There was but one woman, Mrs. Levi Gockley, in that precinct registered in time to vote. She voted, and she voted dry.

In El Toro precinct six women voted and in Delhi fifteen.

The election everywhere passed off quietly. The dries were not working, while nothing was done by the wets anywhere except at San Juan Capistrano, where there was little done.

Different Basis

The elections placed the two territories on a different basis so far as the sale of liquors is concerned. Prosecutions in those territories will now be under the state law instead of under city and county ordinances, and the violations become high misdemeanors instead of misdemeanors. By that is meant that one charged with running a place where liquor is sold will be tried in the superior court after a preliminary examination before a justice of the peace.

The penalty for violation is: For first offense, a fine not exceeding \$900, or imprisonment in the county jail not exceeding seven months, or both; for second and subsequent offenses, the penalty shall not be less than \$1000 fine and not less than one month in jail. Thus a second conviction means a jail sentence.

Under the Wiley local option law, the territory ninety days from the date of election becomes what is known as non-licensing territory, and no election on the same issue can be held within two years.

It will be unlawful to keep a place where alcoholic liquors are sold, or to solicit or take orders or agree to the sale or delivery of alcoholic liquors, except in the cases of registered pharmacists and at places where liquors are stored or manufactured.

It shall not be unlawful for one to give liquor at his home, not a public place, as an act of hospitality. A pharmacist may sell liquor on a physician's prescription, a prescription being good for use but once. A pharmacist selling alcohol for other than medicinal purposes must keep a record of the date, quantity, purpose and the signature of the one to whom it is sold, the record to be open to public inspection.

Alcoholic liquors may be sold for sacramental purposes and may be distributed at sacramental services.

No physician may give or write a prescription for alcoholic liquor for any well person or any person not in actual need of the liquor, either separately or compounded with other ingredients.

Before the tenth day of each month every pharmacist who keeps or dispenses alcoholic liquors shall file with the county clerk, for public inspection, sworn statements showing the kind

Mgr. Falconio Voices Praise For Americans

ROME, Nov. 27.—Cardinal Diomed Falconio, for many years representative of the Vatican at Washington, today expressed to the United Press his kind remembrance of his term of duty in this country. He spoke as follows: (By Cardinal Diomed Falconio. Copyright 1911 by United Press Association.)

"It gives me great pleasure to express the deep sense of friendship and gratitude I feel regarding all with whom my official and personal life brought me in contact in America. I especially wish to express by deep appreciation and high consideration of the kind co-operation extended me by the entire hierarchy of America.

"To the priests and people, too, the deepest recognition is due, as they have always shown the highest veneration for the holy father, represented on many occasions by me, and it is one of my happiest duties at Rome to tell his holiness of the devoted clergy and the American people. I pray God will bless and prosper all the diverse social elements of that great country."

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Fair tonight and Tuesday; light northeast wind.

King George and Queen Mary Arrive at Aden Today

ADEN, Nov. 27.—King George and Queen Mary arrived here today en route to the Indian Durbar.

50,000 Metal Workers Strike for Higher Wages

BERLIN, Nov. 27.—Fifty thousand metal workers struck Saturday for higher wages, forestalling their employers, who had served notice of a lockout to take effect today.

Ralph Boynton Los Assistant State Forester

SACRAMENTO, Nov. 27.—State Forester Homans has announced the appointment of Ralph Boynton of Los Angeles to the position of assistant state forester to succeed C. Winthrop Bowen, who has been advanced to the position of deputy.

New York Heirless

NEW YORK, Nov. 27.—Miss Mildred Sherman, daughter of W. W. Sherman, was married Saturday afternoon at the bedside of her father to Lord Camoys of England. Camoys had a special dispensation from the Pope to wed Miss Sherman who is an Episcopalian.

Mulford Wins Vanderbilt Cup Today

SAVANNAH, Nov. 27.—Ralph Mulford, driving a Lozier, won the Vanderbilt cup today, finishing the 289-mile drive in three hours and fifty-six minutes. Ralph De Palma, in a Mercedes, was second; Wishart in a Mercedes, third.

Well Known Los Angeles Editor Dead

SAN ANGELES, Nov. 27.—James C. Henry, aged 77 years, for many years vice-principal of the Los Angeles High School and one of the best known and best loved men in the educational field of Southern California, died at 9 o'clock yesterday morning at his home, No. 1412 South Burlington avenue in this city.

McDavitt May Gain Another Trial

SAN BERNARDINO, Nov. 27.—The possibility of a new trial for Dr. McDavitt, convicted of a statutory offense against Miss Jessie McDonald, was indicated today when Superior Judge Oster set next Monday as the date for hearing arguments on a motion for a new trial. McDavitt was to have been sentenced today.

and quantities of alcoholic liquors bought and received by him, and showing the kind, quantity, by whom purchased and on whose prescription sold by him for the previous month.

These reports shall each be kept for two years by the county clerk.

LOS ANGELES REGISTRATION FRAUDS PROBE HAS BEGUN

LOS ANGELES, Nov. 27.—Detective Browne of District Attorney Frederick's office today completed an investigation of the first fifty names to be proceeded against for illegal registration and placed the data in the hands of Deputy District Attorney Hanna, who will issue arrest warrants immediately.

The far-reaching hand of the United States government has been thrust into the investigation of alleged registration frauds in Los Angeles. County Clerk Harry J. Leland has been requested by the naturalization bureau to report all data bearing on the registration of naturalized persons suspected of having willfully sworn falsely to their affidavits, or unnat-

MOUNTAIN LION FEEDING ON PIGS

Hungry Beast Has Been Holding Forth in the Vicinity of Serra

DOGS WERE UNABLE TO KEEP TO TRAIL

Shepherd Dog Killed and Half Eaten—Buchheim Loses Some of His Hogs

A mountain lion has taken up his abode in the river bottom and hills near Serra, three miles below San Juan Capistrano. Two or three residents of that section have seen the lion, and he has left his visiting card in the shape of half-eaten carcasses. Several pigs belonging to Aaron Buchheim have been missed as the result of the lion's depredation. The partly devoured carcass of a shepherd dog belonging to Domingo Oyharzabal explained the disappearance of the dog from his home.

Attempts to hunt down the marauder have so far failed. Yesterday John Landell, John Forster and others were out with a pack of dogs, but owing to the fact that the day was unusually dry the dogs soon lost the trail.

It is thought that the lion takes to the hills to the northwest at times, though so far whenever seen he has been in the willows of the river bottom.

ANOTHER PRINCE OF CHURCH SOON

Pope Keeps Name Secret—American Cardinals Welcomed by Church Head

ROME, Nov. 27.—Pope Pius today just prior to the meeting of the secret consistory to confirm the recent selection of eighteen cardinals, caused the announcement to be made that a nineteenth prince of the church had been selected, whose name for the present, will be kept secret.

The consistory to ratify the Pope's selections of eighteen prelates, among whom are Cardinals-designate Farley and O'Connell of the United States and the former apostolic delegate at Washington, Mgr. Falconio, met today in the hall of consistories at 9 o'clock this morning.

Nearly a full representation of the members of the Sacred College was present.

POPE'S TRIBUTE TO BOSTON AND ARCHBISHOP O'CONNELL

ROME, Nov. 26.—There was a remarkable scene at the Vatican this morning when the Pope received in audience Cardinal-designate O'Connell of Boston. The audience took place in the private room next to the Pope's apartments, where Pope Leo XIII received the Kaiser and King Edward VII.

Pope Pius paid a great tribute to Archbishop O'Connell's archdiocese and said Boston was the greatest Catholic city in America and that her people were loyal, devoted and practical Catholics and unlike many Europeans who are Catholics only in name.

ENGLAND BACKS RUSSIA PROTESTING BLOCKADE

CONSTANTINOPLE, Nov. 27.—It was stated here last night that Sir Gerald Lowther, the British ambassador, has told the Porte that Great Britain will support Russia in her protest against the blockading of the Dardanelles.

LOS ANGELES REGISTRATION FRAUDS PROBE HAS BEGUN

LOS ANGELES, Nov. 27.—Detective Browne of District Attorney Frederick's office today completed an investigation of the first fifty names to be proceeded against for illegal registration and placed the data in the hands of Deputy District Attorney Hanna, who will issue arrest warrants immediately.

The far-reaching hand of the United States government has been thrust into the investigation of alleged registration frauds in Los Angeles. County Clerk Harry J. Leland has been requested by the naturalization bureau to report all data bearing on the registration of naturalized persons suspected of having willfully sworn falsely to their affidavits, or unnat-

uralized aliens who registered without having produced the proper credentials.

An amendment to the United States naturalization laws, enacted in 1909, provides for the prosecution and punishment of any unnaturalized person deliberately representing himself as a citizen of the United States.

ENGLAND OPENS MOROCCAN QUESTION

Sir Earl Gray Charges Germany With Double Dealing in the Situation

DEMANDS ASSURANCE OF PEACE FROM KAISER

Says Friendship Cannot Be Had at Cost of Disloyalty to England's Allies

LONDON, Eng., Nov. 27.—Notice to all the world that Great Britain is prepared to maintain her present alliances and policies whether Germany likes it or not, was voiced tonight in the House of Lords in a speech by Sir Edward Grey, minister of foreign affairs.

Grey reiterated the defiance of Chancellor of the Exchequer Lloyd George, which a short time ago, set all Europe in fear of an immediate war. The British foreign minister in no uncertain terms indicated that Germany's interference in the Moroccan situation was not due to humanitarian motives. He flatly charged double dealing by the German ambassador, Herr von Kiderlen-Waechter, the German foreign minister and the Kaiser in failing to live up to the German promises to quickly withdraw the cruiser Panther from Agadir.

After detailing at length the negotiations between the two nations over the Moroccan imbroglio, Sir Edward practically demanded of Germany an assurance that no hostile designs are harbored against Great Britain, at the same time emphatically declaring that no improvement of Anglo-German relations need be expected at the cost of British friendship with her allies.

This remarkable statement heard by crowded galleries, is believed to again reopen wide the Moroccan question which the foreign minister plainly said was "still in a most delicate condition."

GRIM SIEGE OF NANKING

Streets Littered With Dead as City Is Shelled By the Fierce Rebels

SHANGHAI, Nov. 27.—Battered with a storm of shot and shell from rebel batteries on two sides, swept by a sheet of death from the rebel warships off its walls, with a great part of its area in ruins and with rebels already entrenched in one of its corner-plotted quarters, the fall of Nanking, the last stronghold of the Manchu dynasty south of the Yangtze River, is expected at any hour.

Convinced that their cause is lost, the viceroy and the Tartar general in command of the Manchus, have already fled, taking refuge on Japanese battleships. On Tiger Hill and in the greater part of the city the imperialists are still fighting with the courage of desperation, certain that massacre will be their fate when the city falls. Throughout all Nanking the carnage is fearful. Corpses of the Manchus litter every street.

MANCHU LEADERS FLEE BUT IMPERIALIST TROOPS IN THE FIGHT TO DEATH

SHANGHAI, Nov. 27.—The fall of Nanking, the last stronghold of the Manchu dynasty south of the Yangtze River, is expected at any hour.

Convinced that their cause is lost, the viceroy and the Tartar general in command of the Manchus, have already fled, taking refuge on Japanese battleships. On Tiger Hill and in the greater part of the city the imperialists are still fighting with the courage of desperation, certain that massacre will be their fate when the city falls. Throughout all Nanking the carnage is fearful. Corpses of the Manchus litter every street.

ENGLAND BACKS RUSSIA PROTESTING BLOCKADE

LEGISLATURE MEETS IN SPECIAL SESSION

Young of Berkeley is Preparing Bill for Presidential Primary--Session Likely to Last Thirty Days

SACRAMENTO, Nov. 27.—Assemblyman Young of Berkeley is today perfecting the presidential preference primary bill which will probably be adopted as the administration measure. It will call for the first popular vote on presidential nominations early in May.

THIRTY-DAY SESSION IS NOW EXPECTED

SACRAMENTO, Nov. 26.—Most of the legislators to participate in the special session by Governor Hiram W. Johnson, save for some of the Southern California members who are expected to arrive in the morning, arrived today.

It is said that no bills will be introduced until Wednesday. The bills will number about 110 and, save for those changing code sections to make them conform with the new constitutional amendments, for the most part will be devoted to reappointment. There will be nearly as many reappointment bills as sections in the state.

The interest of the session will center on apportionment, the public utilities commission and legislation for free text books. Though the free textbook clause appeared seventh in the governor's call it is to have third place for the consideration of the lawmakers.

It has been decided that the senate holdover committee, which is carrying on the investigation into state text books will not report at the special session, but will continue its work until the regular session of 1912.

However, investigation into text-book matters has reached such a stage as to allow intelligent action on the free text-book matter, and it is probable that the holdover committee will be asked for advice, even though it gives no full report.

It practically is settled that only four of the standing committees of each house will be called together during the session—the judiciary, the financial, the engraving and enrollment, and the apportionment.

Hard Work on Apportionment

The apportionment committees naturally will perform the hard work of the session. It is likely that after the first few gatherings these committees will meet in joint session and try to get together on a proposition for both the senate and the assembly. The senate committee is composed of Senators Thompson (chairman), Boynton, Burnett, Welch, Finn, Stetson, Estudillo, Cullen, Roseberry, Bell Hewitt, Strobridge, Walker, Birdsall, Sanford, Curtin and Campbell. The assembly committee is composed of Bohnett, Beatty, Bishop, Bliss, Butler, Gerdes, Griffin, Hinkle, Hinshaw, Joel, Kehoe, Randall, Rogers, Rutherford, Slater and Young.

Committee work on most of the measures practically has been eliminated because of the fact that all the bills have been prepared by committees named at the legislative conference in Sacramento a few weeks ago.

Governor Johnson says he hopes to see the work of the session over so that the members may be at home for Christmas. That means a thirty-day session.

Fire-Fighters Put Out Flames at County Park

Yesterday a grass and brush fire threatened the County Park, and but for the timely and determined fight put up by fire-fighters a part of the park would have been destroyed.

The fire started on the hill south and east of the park on Irvine Company property. Just how it started is not known. The only surmise concerning the origin grows out of the fact that two boys on bicycles went in that direction during the morning, and may have dropped a cigarette stub.

Attorney E. E. Keech of Santa Ana was the first to discover the blaze, which started on grassy land. He gave the alarm at the park, and with the custodian, A. B. Tiffany, and others, began the fight to stop its spread. The Michel brothers, who have a cat of the lease on the southern part of the Irvine ranch, and their men, and others from the neighborhood joined in the fight. A telephone message to Orange sent a number of automobiles loaded with men to the park. Altogether about seventy-five men congregated and with shovels and sacks they beat out the flames. The fire was practically under control before the men from Orange arrived.

The fire barely went over the boundary line into the park. In the ten or fifteen acres covered by the fire a number of oak trees were badly scorched, but Tiffany does not think they were killed.

Had the fire broken out further north, where the wind could have forced it into the park, there would have been much greater difficulty in saving the magnificent growth in those public pleasure grounds.

LATE OXNARD REPORTS SHOW FIRE IS SPREADING

OXNARD, Cal., Nov. 27.—The terrific forest fire this afternoon destroyed the famous Willowby ranch, a few miles east of Oxnard, according to phone messages just received. The magnificent Canete ranch is also directly in the path of the flames and seems certain to go. The territory in the vicinity of Wheeler Springs, Santicoy and Eliseo canyon is a seething furnace and although the entire community is fighting the fire it has gained such a headway with the springing up of a high wind that they are unable to cope with the situation.

FIRE BROKE BOUNDS LAST NIGHT—SWEEPED TOWARD SEA

LOS ANGELES, Nov. 27.—After sweeping through five canyons and laying waste homes and ranches for miles around, the fires that have been raging for days in the Santa Monica mountains had leaped all bounds last night and were spreading toward the ocean. The loss of property reported yesterday has been found to have been exaggerated. It is believed also that no lives have been lost, although a number are reported missing who may have escaped to a place of safety.

years old, died here yesterday. The ancient man, who was the oldest person in Baltimore, and one of the oldest in the world, was a Russian Jew, and was born in Kiev.

Kalinsky was at one time a soldier and served in the German army under Blucher, at the battle of Waterloo. It is said that he was one of those who helped to burn Moscow to prevent that city from falling into the hands of Napoleon. He had fourteen children.

Skirts made free at Crookshank-Beatty's store. Call Nov. 28, between 11 a.m. and 5 p.m.

LA FOLLETTE NAMED AS CHOICE

Progressives in First State Convention Name Him for Presidential Race

PROGRESS IN ALL LINES IS POLICY OF THE PARTY

Chester H. Rowell Presided and Mrs. Charles Blaney Was Vice Chairman

SAN FRANCISCO, Nov. 27.—The first state-wide Progressive convention, meeting in San Francisco Saturday night, named Robert M. La Follette, United States Senator from Wisconsin as its choice for President of the United States.

The convention was presided over by Chester H. Rowell of the Fresno Republican with Mrs. Charles D. Blaney of Saratoga as vice chairman.

The following resolutions were passed outlining the policy of the La Follette League of California:

"The great political problem which confronts the American people at the present is the restoration of the functions and machinery of government to the people and to make that government responsive to the needs, to the aspirations and to the conscience of the people.

"We believe that the task of making government more truly representative of the people can best be accomplished in the nation through the same agency which accomplished it here in California, an aggressively progressive Republican party; one able to establish and willing to give us constructive legislation.

"Common consent has made Senator La Follette the leader of the effort to make this movement nation-wide, and obvious consistency indicates California as one of the first states which should rally to his support.

"This conference hereby presents to the voters of California the candidacy of Robert M. La Follette of Wisconsin for President of the United States."

MEXICAN STATE IS READY TO SECEDE

Warns Madero to Withdraw Interference; United States Intervention Feared

MEXICO CITY, Nov. 27.—Governor Benito Juarez of Oaxaca today sent an ultimatum to President Madero giving the government forty-eight hours to withdraw its interference with the provincial government, threatening otherwise that the state will secede. President Madero refused to comment.

MEXICO REARS AMERICAN INTERFERENCE—RESENTS IT

MEXICO CITY, Nov. 27.—Intervention of Americans in the affairs of Mexico is the fear being expressed in the Mexican papers. Ill feeling is cropping out in the columns of the native press, and the opinion prevails that the United States is carefully laying plans for interference. Quotations from papers in the national capital show the spirit manifested.

The American ambassador has made an effort to set the natives right. In a statement he says:

Only Enforcing Laws

"I am surprised and somewhat chagrined that the activity of my government in enforcing the neutrality laws of the frontier, clearly in the interest of peace and order in Mexico, should inspire hostile and ungenerous comment.

"In enforcing its neutrality laws on the frontier with utmost rigor, and in seizing and punishing all violators of the Mexican law operating from American territory, the American government discharged the highest obligation of a friendly government.

"The attempt of the newspapers to show a difference between the attitude observed by the American government during the Madero revolution and at the present moment is a credit to neither of them, as both should understand that the circumstances then and now are entirely different. The United States had not the benefit of experience in guarding the frontier which it has acquired during the events of the last year. Then, too, it had not learned how expensive and disastrous revolutions are, not only to Mexico but to the United States, whose material interests here are very great."

years old, died here yesterday. The ancient man, who was the oldest person in Baltimore, and one of the oldest in the world, was a Russian Jew, and was born in Kiev.

Kalinsky was at one time a soldier and served in the German army under Blucher, at the battle of Waterloo. It is said that he was one of those who helped to burn Moscow to prevent that city from falling into the hands of Napoleon. He had fourteen children.

ARE TO VIEW ROAD DEC. 12

Conference Held Today Looks
Good for Building of
Elsinore Road

County Surveyor McBride and
Forest Ranger to Go
Up Canyon

With the supervisors of Riverside and Orange counties anxious to complete the road from San Juan Capistrano to Elsinore via San Juan and Sevierville canyons on the west slope, the possibility of securing the connecting road is now better than ever. This morning Supervisors J. A. Crane of Elsinore and Carl Carlton of Highgrove, Riverside supervisors, met the Orange County supervisors and Forest Ranger J. B. Stephenson at the courthouse here.

Supervisor Crane of Elsinore stated that he was ready to complete his road to the Orange County line, and would begin work whenever Orange County begins on her side.

An adequate, good road up Sevierville canyon on the Orange County side will cost up toward \$10,000. At present the canyon road reaches no further than Sevierville ranch above San Juan Hot Springs. The canyon is rough and in places narrow.

Forest Ranger Stephenson stated that he could not say how much the forest department would give toward putting the road through. The road will be of much benefit to the forest service in that part of the Cleveland

National Forest.

Several of the supervisors were of the opinion that the forest department ought to aid in paying for the road. It was also decided to see if an appropriation can be secured from the state.

As a result of the conference this morning the proposed route will be gone over Dec. 12. Supervisor Crane will leave Elsinore and travel west down the canyon until he meets County Surveyor McBride of Orange County, who will be piloted by Forest Ranger Stephenson. In this way definite information as to what will be necessary to build the road will be added to. Several years ago the canyon was surveyed and it was found that the road could be built.

This connecting road will be of much benefit to the southern portion of this county, and to the Elsinore district of Riverside County.

NO REASON FOR IT

When Santa Ana Citizens Show the Way

—There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of the urinary disorders, the dangers of serious kidney ills when relief is so near at hand and the most positive proof given that these ills can be cured. Read what a Santa Ana citizen says:

W. A. Irvine, 518 E. street, Santa Ana, Calif., says: "I am as firm a believer in Doan's Kidney Pills now as when I publicly vouched for their merits in March, 1907. The praise I give Doan's Kidney Pills is duly warranted, as their use has brought me relief on a number of occasions from backache, and sharp pains through my joints. This medicine which was procured at Dean's Drug Store, has also been helpful in other ways, relieving soreness through my kidneys and regulating the passages of the kidney secretions."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

FINE VICTORY IN BIG GAME

Santa Ana Football Team De-
feated Long Beach By
12 to 0 Score

Thanksgiving Day, Former
Stars, Now Alumni, Are to
Meet School Team

Santa Ana High School football team slipped one over on Long Beach on the latter's grounds Saturday to the count of 12-0. But the score doesn't tell the story of the completeness of Santa Ana's victory. Long Beach was on the defense three-fourths of the time and hard pressed to keep Santa Ana from running up a much bigger score.

That the score was not at least 20-0 was due to the fact that Brick Grouard's toe didn't work with its accustomed accuracy. Seven times the ball was worked to within easy distance but in but two tries did the ball go true. When going good Brick has been making about two out of three of such easy chances as those of Saturday. But Brick wasn't entirely to blame as neither Warren nor Newcomer was as accurate in passing as usual. At any rate, this was the only lame feature of Santa Ana's work. Against her defense Long Beach could make but little headway, while the latter's defense was ripped open for long gains, Santa Ana making first down four times to Long Beach's one.

But once was Santa Ana's goal in danger. On the kick off Barker received the ball but fumbled on being tackled, a Long Beach man falling on the ball. After two weeks with no gain the Beachers tried a placement which barely missed. After this the ball was never in striking distance of Santa Ana's goal.

Santa Ana played the best game of the season. From end to end the line was on the jump at the snap of the ball while the backfield showed more game. All the men were in the game and speed than in a previous all the time out jumping and out tricking their heavier opponents. Santa Ana used a much greater variety of plays and kept Long Beach guessing as to the next move.

No member of the team deserves mention above another. "Little Spud" made Santa Ana's touchdown by intercepting a forward pass on the dead run and planting the ball between the goal posts after a run of 75 yards. Newcomer showed his old-time form in running back punts, frequently carrying the ball back to the line of scrimmage. "Big Spud" made a brilliant broken field run-in out of Long Beach's punts after touch back, carrying the ball back past the twenty-yard-line. Little Robinson after taking "Little Spud's" place made a great showing and would have scored a touchdown had not his ankle turned, causing him to fall. Barker's work at full was better than the coach had expected of him this year. Time and again he tore through the line for six, eight, ten yards to be downed by three or four Long Beach men.

In the line Lantz and "Red" Timmons were there with the goods. Several times Lantz slipped to the side-line for forward passes for long gains. West, who took Timmons' place in the last quarter, played a brilliant offensive game. The game ended with the ball in his hands after a forward pass. Visel and "Brick" at tackles, make a good pair. Both were on the job Saturday on defense especially. Brick's kicking makes him one of the most valuable men on the team. At center, "Bill" Warren, with Swanner and Greey, and later Mc-

Phie in Swanner's place, opened up the line for Barker's plunges, while "Bill" blocked two of Long Beach's punts.

On Thursday Santa Anans will have their last chance to see this team in action when it meets an all-star alumni team. The line-up of the all-stars is not known but will have some of last year's stars, perhaps including Art Lutz, the all Southern California full of this year, and perhaps the Smart brothers of the Occidental Varsity. Stars of other years, as DuBois, Burke, Ross, Whitney and Carden, will be in the line-up.

The game will start at 2:30. Nothing better for digestion than fun after a big dinner. This game will be one of the hardest fought and best played of the year.

Great credit is due Coach Ratcliffe for the great work he has done with the high school boys.

CASCARETS FOR A SICK, SOUR STOMACH

Gently But Thoroughly Cleanse and
Regulate Your Stomach, Liver
and Bowels While You Sleep

—That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means indigestion; a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they cure indigestion, because they immediately cleanse and regulate the stomach, remove the sour, undigested, and fermenting food and foul gases; take excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

FIRST CAR OF THE SEASON

Orange Association Shipped
Oranges for the Thanks-
giving Table

Orange News. Southern California's first car of oranges for this season as usual went out from this district. The Santiago Orange Growers' Association house at McPherson shipped a car of Thompson Improved navels at noon today. It was the first of the new crop to be dispatched to the eastern markets.

The Thompson Improved are a little earlier in coloring than the Washington navels, and the color was not forced by the "sweating" process, which is being frowned upon by the U. S. Agricultural Department.

The new fruit is said to be of fair quality and coloring as well. Picking will be pretty general next week and most of the packing houses will have crews out. The McPherson house will average a car and a half a day within a few days.

An ante-nuptial function in honor of Miss Lela Crawford, whose wedding took place today, was given by the Ruby Rebekah Lodge Thursday evening, at the home of Mrs. L. P. Gitchell on East Palmyra avenue. The affair was brilliantly carried out and highly successful in all respects.

The Gitchell home was decorated in a fashion most charming. Red hearts and wedding bells, of course, prevailed, their beauty accentuated by a background of Christmas holly, the first that has appeared this season.

The evening was passed with games, refreshments of brick ice cream, in layers of pink and green, and accompanied by home-made cakes, being served.

The bride-elect, who is head of the Ruby Rebekah Lodge, with the title of noble grand, was the recipient of a beautiful silver casserole, a gift from the lodge. About thirty members took part in the affair.

In watching the progress of operations on the new Campbell building, it is interesting to note some of the details of the big structure as they develop. The iron beams that are to form the framework of the rear end of the building are each 42 feet in length and weigh 4820 pounds. They are the largest that have ever come into the city or into Orange County.

Some distinctive features are being put into the cement cornice work and window frames and sills, which are being prepared on a vacant lot facing Olive street directly behind the new building. The ground there is well covered with cement pieces which bespeak cleverness, both in design and workmanship.

LEAGUE GAME LOST TO ORANGE PLAYERS

The second league game of girls' basketball, Santa Ana vs. Orange, was played at Orange last Saturday. The Orange girls won with a score of 16 to 9. The regular league referee did not appear, so Mr. McDonald of Santa Ana refereed. Orange played a hard game, and the Santa Ana girls "lost their heads," and their team work was not up to par.

On the Santa Ana team the best playing was done by Dixie Perkins at guard, and Dahlia Malen at forward.

Tennis at the High School

The tennis tournament at the high school is now well under way. Several have already qualified for a second chance at the racquet which J.

California: It's History and Romance

By JOHN S. MCGROARTY

BOOK that you will SIT UP NIGHTS to READ

It is a one-volume story of the most wonderful state in the world told in the language of a poet. Every phrase is a song; every statement is a fact. It thrills and thrills and thrills.

Eloquent, yet concise; beautiful, yet solid; fascinating, yet instructive; it contains all that is essential and is a portrayal of California by the Golden State's most gifted and best loved writer.

Adapted to youth, middle-aged and elderly persons alike, it meets the universal demand of all for a single-volume history of California. It is very valuable to the student, not only for the knowledge it contains but also as a study in word-painting and phraseology.

This work has been reviewed and passed upon by the most eminent historians and literary critics of California, to their complete satisfaction.

In one volume, thoroughly indexed, beautifully illustrated, splendidly bound and printed in good readable type, it is the most valuable book on the Holiday counter. Be sure that some member of your family receives it as a Christmas remembrance in order that it may have a place in your home.

Written by a Californian, published by a California House, it fulfills in every respect your choicest demand. Sold at all bookstores, or address

POLYTECHNIC HIGH SCHOOL HELPS PUPIL FIND HIMSELF

Mrs. Hattie B. McPhee Ably Presents
Description of Hollywood Institu-
tion and Argument for \$200,-
000 Bonds Here

(By Hattie B. McPhee)
This article is intended for two classes of readers: Those who are in favor of the proposed Polytechnic High School; and those who are opposed to it. For those who are of the former class it presents a brief description of a Polytechnic High School that is regarded by educators as a perfect illustration of the highest type of the new ideal of education, wherein the hand and brain are trained together. And for the readers of the latter class, it aims to present a convincing argument that a modern and perfected Polytechnic school is a gift-edged business investment, an establishment not alone of education but of dollars and cents, and as it adds to the town's advantages, an institution to be regarded in the same light as good streets, adequate water supply and such other improvements, once considered as luxuries but now held as necessities by the homeseeker and homebuilder. And, as the de-

YOU CAN BE WELL

Bounding health is your right—and you can have it if you go about building up your system in a common-sense way. When one organ is run down, the whole system is thrown out of harmony, and chronic disorders, such as constipation, liver, kidney and stomach troubles, catarrh, rheumatism, female complaints, nervous weakness and general debility—quickly manifest themselves.

BRACKETT'S SYSTEM BUILDER

goes to the source of bodily weakness—the blood. It purifies it and sends vitalizing nourishment to every organ of the body. It makes your liver and kidneys work as nature intended—increases your capacity for mental and physical labor—and restores every organ of your body to natural—normal condition.

GET IT TODAY

that "pleasant-to-take" herb tablet. At all drug stores, 50 doses, 50 cents, or sent prepaid upon receipt of price by Robt. A. Brackett, Chemist, Los Angeles, Cal. Write for free booklet.

Dean Drug Store, Special Distributors.

scription of the model school will require more detail, the argument for the school as a business investment will be presented first.
The school in question—Hollywood Polytechnic High School—now has an enrollment of over 700 pupils. Its original enrollment—that is, as a High School, but without the technical advantages, was 340 pupils, only two years ago. It has a faculty of twenty-eight instructors, and five buildings, erected two years ago, are now found to be insufficient for its continuous growth, and new ones are to be commenced very soon, the money having already been voted for the purpose. The opening of the present school term found not one desirable vacant house to be rented in Hollywood—all were filled by newcomers, and many of these families came for no other reason than for the new Polytechnic school. A number of the pupils come from a considerable distance, and their parents are in every case eager to be near the school which accommodates their son or daughter. Several families of means have taken up their residence in the immediate vicinity to the school and are investing in expensive properties that they may be where their children can have the advantages of this training. Any real estate man knows the class of population attracted by the high-grade school to be the most desirable class. The money that goes into building and equipment goes directly to develop the town, for the classic and dignified buildings and the well-kept grounds are in themselves things of adornment. The money that goes to the faculty goes to persons who are held in the highest regard and who are earnestly desirous of benefiting the school and through that the town. Southern California holds a unique position in regard to the Easterner of independent means, who comes here, undecided what city to select, from among so many, where he may make his home. And if that Easterner has one child or several, one of the strongest inducements any city can hold out is that of the modern and efficient schools.

The reader who is already in favor of the proposed school bonds may be interested in a description of the splendidly conducted Polytechnic High School of Hollywood, which stands as a practical demonstration

of what the technical school can be and do.

As far as that part of the curriculum which includes English, history, languages and mathematics, this school has very much the same general system and equipment as any modern first-class High School. The building devoted to these branches was built in 1904 and is attractive and commodious, and the teachers are the best that can be obtained. But it is beyond these studies, and in addition to them, that this school stands as a type of the newer High School education, which prepares not only for university or professional training, but for business or domestic life, or for artisans whose work is made a science and an art. Scientific study has at its disposal an entire building of two stories and basement. Here botany, physics, chemistry, physical geography and physiology have well-equipped laboratories and commodious lecture rooms. Practical agriculture is studied in this building and in the gardens and hot-houses that surround it. This course in agriculture prepares the student either for advanced study in the university, or for practical work on his own ranch or garden or that of an employer. Here he studies soils, crops and methods of gardening and ranching, in a way at once theoretical and practical. Prof. Westcott, teacher for several years in the Santa Ana High School, has charge of the physics and chemistry in this science building.

In another large building are the roomy wood shops, forge rooms, foundry, and all the necessary machinery for the courses in mechanics, engineering and that work in carpentering and metals which is incidental to several of the other courses. This includes, cabinet work, turning, furniture building, pattern making and foundry work, machine shop work, pipe fitting and plumbing; and while this phase of the work is not merely a "trade school" it helps many a boy to find his vocation, who has neither inclination nor aptitude for education which is purely mental and not manual. As a convincing demonstration of what the boys can do in these lines of work, it must be said that they have themselves installed the greater part of their own machinery, and have made for their own and other buildings desks, drawing boards, cupboards and lockers, work benches; and the complete furniture for a five-room apartment, where the domestic science classes have their work in household management. These articles have not the hall mark of the amateur, but are well designed, well made and of artistic finish. The upper floor of this building accommodates the drawing students who study mechanical and architectural drawing.

Nothing is neglected and the manual work of this class is supplemented by the brain work which complements it in the knowledge of the theoretical phase of each of these branches of mechanical acts. And the specimens of work produced by these High School lads are such that skillful workmen in their various trades might claim with pride.

The fourth of the group of fine buildings is a large gymnasium where two years' training is compulsory, more than that is optional. Athletic

sports are encouraged, but are kept subordinated to the real purpose of the four years' course, which is not simply preparatory to college or university, but to develop the natural abilities and direct them, and to prepare for a useful and beneficial life, no matter what the vocation.

The domestic science building is one of the most interesting on the campus. Here are class rooms for sewing, millinery, art, crafts, including textile work, basketry, modeling, metal work, applied design, house furnishing, dressmaking and fine needlework; roomy, well arranged kitchens for cooking, and a hospital ward for the sick. On the second floor a complete five-room apartment provides space for the girls to put into practice their knowledge, and here, under the direction of a teacher, a group of girls learn to keep house, prepare and serve meals and fit themselves for making a profession out of woman's natural occupation—the making of a

home.

In the lower floor is the co-operative cafeteria which serves inviting and nutritious luncheons at a cost low enough to make the meal within reach of all, and yet charges just enough to pay running expenses. This is managed by the student-body which employs two women as cooks, while the cooking classes assist in cooking much of the food in the course of their lessons.

The auditorium has a separate building with ample stage room and seating capacity of 1120. In this building are also the music hall and dramatic room. Both of these are admirably arranged and fitted up and they develop the aesthetic and artistic side of High School training. Miss Nelye Dickson, formerly of the Santa Ana High School faculty, has charge of the dramatics and oral expression work here.

This is an inadequate presentation of an institution that is a power for education of the highest and truest

type. Dr. Snyder, the principal of the school, in his quiet and reserved way, is an enthusiast over Polytechnic work. He believes in this practical education and in the great opportunity that opens out before it. He is conducting a magnificent institution in Hollywood, and the secret of the school's success lies in one little remark he wisely made: "We help the pupil to find himself."

ANAHEIM FACTORY HAS BIG ACREAGE ALREADY SIGNED UP

Anaheim Main Dealer: The record made by Anaheim sugar factory during the recent season is now bearing excellent fruit in the shape of acreage coming to the company for beet production for the coming season.

"We probably have a larger acreage signed up at the present time than any other factory in the county," said Superintendent Egge this

week. "All of our first year's acreage is back and a great deal of land that we did not have for last season. At the immediate time we have more than a thousand acres above our total acreage for last season."

With such substantial appreciation of the work of the factory during the last season as this showing represents on the part of the beet growers, the factory people are certainly entitled to feel much encouraged. It is evident that their efforts and the good work which attended these in getting the crop through the mill quickly and to the satisfaction of the growers won the confidence and the enthusiasm of the latter, with the backing of whom the success of the factory is, of course, abundantly assured. That its next season will be a great success in point of beets grown for it and in general conduct of the enterprise under the efficient management that it enjoys, is already abundantly assured.

CONGRATULATIONS

The voters of the fifth district—both men and women—are to be congratulated upon the glorious victory won there last Saturday. There is no room for ifs and ands about those figures, 682 dry and 110 wet. In a most convincing manner, the people of the fifth district have declared that they do not want a saloon in their vicinity. The campaign committee worked hard and conscientiously, and with good results. While confident of victory it left no stone unturned to settle the question once and for all time.

And the women? No one can question for a second but what the women knew what they were voting about, and they voted right.

SHOWS WHAT SANTA ANA LACKS

This editorial is written for the purpose of urging every reader of this paper to carefully peruse the article appearing in today's paper in which the polytechnic high school at Hollywood is described. It seems to us to be one of the most convincing documents that could be promulgated in the campaign for the passage of the proposed \$200,000 bonds for a similar school at Santa Ana.

That it meets the demand for practical work in the high schools is proven by the recital of the fact that in two years the attendance of the school has jumped from 340 to 700. How does that hit Santa Ana? It means that if Santa Ana gives its children a similar institution, her high school attendance will be likewise increased. Instead of taking children from school they will be allowed to remain that they may learn useful every-day occupations.

If you do not know what a polytechnic high school is, if you want to vote intelligently at the election to be held on December 14, read that article.

TAINTED MONEY

Fresno Republican: How far the philosopher of the every day world has advanced since a few years ago when preachers and publicists discussed gravely whether churches should take tainted money! Tainted money is no longer a moral issue. The old problem has been solved by going to both extremes. The churches take the tainted money whenever it is offered to them, and the world as a whole is going about boldly and bravely to see that there is no more tainted money to be given to churches or libraries or universities hereafter.

It used to be a matter of concern how a man got his money when he came to dispose of it. Now we want to know how a man gets his money while he is getting it. After he has gotten it, he may do as he pleases with it, so long as he does not use it for immoral purposes, and the better the purpose he devotes it to, the better for him and the public. The folly of attempting to bottle up tainted money is seen.

But there must be none tainted. There must be no big fortunes stolen, any more than little fortunes. There must be no big fortunes accumulated by ways that are injurious to the public or to any body of citizens. There must be no fortunes obtained by discovery that shall be more than due reward for the effort at discovery.

The world has indeed advanced when it has gone beyond the "tainted money" stage.

From a notice of a Cornish church: "The preacher for next Sunday will be found hanging in the church porch on Saturday."—Punch.

3500 AUSTRIAN RAILWAY EMPLOYEES THREATEN STRIKE

MADRID, Nov. 27.—Thirty-five thousand employees of the Andalusian railways presented an ultimatum declaring that unless their grievances are met before December 7 they will go on strike that day. Efforts are being made to have a conference of representatives from both sides, but the railroads are not willing to meet the men. The strike, should it occur, will come at a particularly inopportune time, as the aviation meets are to be held during that week at Malaga, Tangier and Cueta.

Where Does Irrigating Water Go is Question

(BY G. W. WATERBURY, OF CORONA, IN CALIFORNIA CULTIVATOR)

Three years I spent in studying the effects of fertilizers on the semi-arid soils; I wanted to get the most for my money out of every pound that went into the land. As I watched the effects I saw that unquestionably there was another factor, and a big one, too, that entered into the making of any fertilizers effective, and that factor is water. Without a suitable supply of moisture a maximum benefit cannot be derived from the fertilizers already applied, no matter in what amounts applied.

Taking the average rainfall of the citrus belt of Southern California as 12 inches and allowing 8 irrigations during the rainless season, the total annual amount of water placed on our groves is about 45 inches, an ample amount if every drop of water could be made to do its duty. However, a certain portion must be allowed for downward percolation and, we regret to say, a far larger portion lost through evaporation during the long dry months of the summer. For this loss we are, to a great extent, responsible.

For the even texture of the fruit, for the thrifty appearance of the tree and especially for the rapid building up of citrus trees formerly dormant, or long neglected, water in large quantities is absolutely essential. In the lemon orchards, in order to get the fruit quickly up to size, to prevent tree ripening (always a loss financially) and to promote that vigor of limb and healthy color of leaf always noticed in the best lemon groves, water, a constant, ever present quantity of water, must always be held in the soil. Of course, I refer only to deep and well drained soils, the only kind any citrus grove should ever be planted in.

What becomes of the water? Ask any citrus grower this question and the answer ninety-nine out of a hundred times will be the same. He does not know and I did not know; the remedy is found in the strenuous application of shovel and mattock two and three days after irrigation. With knowledge should come understanding.

The practical tests were made by W. C. McCully and myself, at Mr. Flagler's El Cerrito ranch in Corona, last September, on a representative strip of sandy loam soil. Before irrigation I had the furrows changed between the trees one hundred feet below the flume so that the water in places was diverted in double winding furrows about the trees, in others led directly by; in places two, in others three furrows between the rows of lemon trees that stood 20 feet apart. One furrow was made deep and almost flat along the lower surface in contrast to the others made by the pointed furrowing plow. There was a 30-inch flow of water on that ten acres for 48 hours, each furrow receiving the same amount of water and three days after the water was off the results were noted. Mr. McCully had his Mexicans dig

easy percolation of both winter rains and summer irrigating waters. The constant scraping of the teeth cultivator on such soils is doing its best to bring the water's surface right up to the plow. In its place a rotating spade, that will not cut through the plowsole and at the same time open up and leave the ground in a most friable condition is preferable.

ROOSEVELT WILL NOT RUN NOR WILL HE SUPPORT TAFT

PHILADELPHIA, Nov. 28.—The North American yesterday morning published an article purporting to be an authoritative statement from Col. Theodore Roosevelt, that he will not be a candidate for the Republican presidential nomination next year and that he will not support Mr. Taft for a renomination.

The article states that Colonel Roosevelt expressed these views a year ago, but adds that he has reiterated them within three days and also consented to their publication.

STOCKTON LOT FOR CHICAGO LAND SHOW BABY

CHICAGO, Nov. 27.—Little Baby Frank, daughter of Mr. and Mrs. A. P. Frank of 717 Carroll avenue, Evanston, born at the land show last Saturday night, has been presented with a lot in Stockton, Cal., by the representatives of San Joaquin county, W. C. Wall and Richard Dev. Bessac.

The mother has been made trustee of the property and if anything happens to the child the lot reverts to the mother.

MAN WITH OPINION MUST HAVE PROOF FOR ITS REMOVAL

LOS ANGELES, Nov. 27.—That a man who has an opinion in a murder trial will naturally expect the side against whom that opinion is held to furnish evidence to remove it, was the position taken by Judge Bordwell during the progress of the McNamara trial today. The statement came during the interrogation of Martin Elftman, a retired farmer, who admitted that he had an opinion affecting both the McNamaras in the Times disaster. In sustaining his objection to further interrogation of the venieman regarding the strength of these opinions, Judge Bordwell said:

"It is certainly bound to be conceded that this juror, or any other juror called into the jury box to give his opinion concerning any phase of this case, will go there with these opinions, and that it would take evidence to remove those opinions whatever they are, and of whatever strength they may be. It seems to me it is inevitable in any case with any man."

This statement seemed to sensationally surprise the defense counsel who had been insisting that jurors must have no opinions of any kind, to serve in this case.

ANTWERP SEAMEN STRIKE

ANTWERP, Nov. 27.—The seamen on boats using this port have declared another strike and serious inconvenience to shipping is anticipated if the matter is not adjusted. The men complain that the ship owners have not carried out the agreements made in the last strike.

FOUNDER'S DAY

Sixteenth Anniversary of the Ebell Club Celebrated Most Successfully

Saturday was a gala day for members of the Ebell, and maids and matrons to the number of about three hundred gathered in Elks Hall to celebrate Founder's Day, the sixteenth anniversary of the founding of the society. A dainty 1 o'clock luncheon was served, which was a new departure for this club and one greatly enjoyed by the members. The entertainment committee proved themselves delightful hostesses and deserve much credit for the planning and carrying out of this feature of the day's pleasure.

Mrs. Crookshank, president of the club, acted as toastmistress, and in a few well chosen words introduced the speakers. Mrs. S. M. Davis had as her subject "The State President," and through her close association with Mrs. Watters in state work the past year, was able to give the members a glimpse of the capability, tact and personal charm of this woman who has been chosen for the highest honor which the thirty thousand Federation club women of this state can give.

Mrs. Watters, who was a guest club, graciously responded, and showed her great interest in the Santa Ana Ebell, since this county was her former home.

"The Past Presidents" was the subject to which Mrs. J. R. Medlock responded, the Ebell having been organized in her parlors. She had only words of praise for the past presidents who had carried on this work which has gone so far beyond the greatest hopes of its founders. She brought out the fact that all the past presidents have been honored with some state office.

Mrs. E. M. Nealley, state chairman of civics, spoke of some of the things which lay before club members, not only as a duty, but as a privilege, now that they have the right of suffrage, and suggested many interesting subjects, a knowledge of which would be helpful in the making of

How rare are the singers who retain the beauty, flexibility and control of their voices when the years creep on; only those who, in youth receive the careful, painstaking guidance of an intelligent and competent teacher ever keep their voices unto old age. There are plenty of proofs that such a "consummation devoutly to be wished," is quite possible of attainment, however.

Those who have been so fortunate are those whose early training was not hurried, who were taught right ideals of tone quality, sane principles of tone production and who were willing to make sacrifices for the preservation of their voice.

SWEET CHARITY

Children of City Schools Will Remember Needy of City on Thanksgiving

The W.C.T.U. will have charge of the annual distribution of food and clothing to the needy for Thanksgiving. This donation is made by the school children of the city, but any one wishing to add to the donation can leave their donations at Central school building at the east door, where the distribution will be made on Wednesday.

There are not many needy families in Santa Ana, but it is the desire of the committee to have each one receive food and clothing at this time. Anyone knowing of needy persons in the community will do a favor by sending the names or phoning them to the president of Santa Ana W.C.T.U., Mrs. Lea Warren, Home phone 614.

Montay Club

The Monday Club will meet tonight at Library Hall. The paper will be read by Mr. A. B. Gardner.

Brilliant Party

Mr. and Mrs. Chas. S. Kendall entertained with a brilliant whist party last Friday evening, closing the series of pleasant parties at which Mrs. Kendall has been hostess.

There were nineteen tables of progressive whist players in rooms decorated in the same red and white color scheme adopted by Mrs. Kendall for all of the parties. Herbert Kendall, Beall Miner, John Menges and Verne Smith assisted in tallying and in serving a delicious two course supper. Mrs. L. J. Carden won ladies high score with first prize; Mrs. W. H. Spurgeon, Jr., second, while H. D. Connell and Dr. J. I. Clark respectively, won gentlemen's first and second prizes.

Change in Realty Firm

F. D. Drake has bought the interest of J. T. Wilson in the realty business of Cain & Wilson and hereafter the firm will be Cain & Drake.

In addition to doing a general real estate business the new firm will write fire insurance, having secured the agency for the Northwestern, one of the best of the old fire insurance companies.

Mr. Drake is well known to the people of Santa Ana and vicinity, having lived here for several years, most of which time he has been engaged in the tailoring business.

Specially Interesting to Women

Few women are physically perfect and, in fact, medical records go to show that perhaps the great majority of women suffer from some more or less serious ailment peculiar to her sex.

To place a reliable treatment within the reach of such persons—one that did not contain anything in any way injurious to the system—Rexall Vegetable Compound was first offered for sale.

Practical demonstrations have since proven that this preparation, having for its basis the formula used by a reliable physician who made a specialty of such cases, is all that has been claimed for it, and we offer you Rexall Vegetable Compound with the assurance that it will prove beneficial in the treatment of such cases, or we will promptly refund any money you may have paid us for it.

Rexall Vegetable Compound can be obtained only at our store—The Rexall Drug Store. Price, \$1.00 per bottle. Dean's Drug Store.

To Royal Arch Masons

The members of Orange Chapter, No. 73, R. A. M., are invited to visit Fullerton on Tuesday evening, Nov. 28. A free automobile ride is offered you. All wishing to go on this trip will notify George Balderston, chairman, either personally or by phone, at once.

Personals

Mr. and Mrs. William Gerhart of Corpus Christi are guests for a few days of Mr. and Mrs. H. J. Powell of Austin. Mrs. Gerhart was for a long time a member of the Powell family when Mr. Powell was pastor of a church in Creston, Iowa.

W. H. Calhoun was a morning traveler to Los Angeles.

Miss Florence Crozier spent the weekend here with her mother, returning to Los Angeles this morning.

Mrs. Margaret Warner, Miss Margaret Ore and Miss Kate Cubbon, were in the city of Los Angeles today.

The George McPherson spent yesterday at Newport Beach.

Mr. and Mrs. Philip D. Lord left for their home in San Francisco yesterday, after two or three days spent at Mrs. Lord's parental home here.

Mrs. L. A. White went to Los Angeles this morning to visit her daughter.

James McFadden and his daughter Miss Jennie McFadden, were early forenoon passengers to Los Angeles.

Mr. O. H. Hall, Sr., who has spent the last week in Santa Ana at the home of her son, Hugh Hall, 326 West Eighteenth street, left last evening for Los Angeles, where she lives in the Percival apartments. Mrs. Edith Eversole came down from Los Angeles yesterday morning to accompany her mother back to the city.

Mrs. E. Davis and friends, Mr. and Mrs. Dolen from Loveland, Ohio, are spending the day at Newport Beach. The party spent two days last week at San Diego, visiting different places of interest.

Rev. and Mrs. Will Trowbridge of Tustin, left this morning for a few days' stay at their Lordsburg ranch.

John Morgan of Montrose, Colo., has been visiting his nephew, Mr. Jones for a few days. He returned this morning to Los Angeles where he is making his headquarters. Mr. Morgan is now on his third visit here and will probably decide to remain in the Golden State.

Miss Katherine Waddell, who came down last Friday from Los Angeles for an over-Sunday visit with Mr. and Mrs. Mac O. Robbins, returned to the city last night.

J. P. Baumgartner returned today from a visit to San Francisco.

Mrs. H. T. Duckett spent a portion of today in Los Angeles.

H. T. Cook of Santa Paula is here for a few days visit with his sons, W. A. and W. H. Cook who are extensive bean growers on the San Joaquin ranch. Mr. Cook, Sr., formerly lived on the San Joaquin, but for the past two years has been located near Santa Paula. While here he purchased a large bill of furniture of the Horton-Spurgeon company which will be shipped to him to furnish a new home he is fitting up.

WILL PUT UP A HARD FIGHT

Attorneys for Stanton Confident Dissolution Cannot Be Attained

The town of Stanton does not intend to allow itself to be dissolved, not if a hard legal fight can help it. Attorney Hanlon of Los Angeles and Attorney R. M. Blodgett of Huntington Beach have been employed to look after the city's interests in the action proposed to be brought. Hanlon has returned from Sacramento, where he saw the papers left with Attorney General Webb by Attorney John D. Pope of Los Angeles and H. G. Ames of Anaheim, with a petition that they be allowed to bring suit for the dissolution of the incorporation of the municipality.

Attorney Blodgett, who was at the courthouse this morning, stated that the grounds upon which dissolution will be asked, if the attorney general allows the case to be brought, are purely technical grounds and he is confident that the proceedings are regular and dissolution cannot be attained. Blodgett was not attorney for the city until after its organization.

PERFECTLY SAFE IN MAKING OFFER

Sam Bernard and the Rest of the Show Every Bit Up to Reputation

Sam Bernard at the Grand last night in "He Came From Milwaukee," was as funny as any man who ever came from any place. Manager Ull, who saw the performance in Los Angeles and who offered to give any person his money back if the show was not worth the price of admission, was perfectly safe in making the offer. No one went away from last night's performance otherwise than fully satisfied that the show was tip-top and the kind that makes one forget whatever sorrows he may have.

"The Man From Milwaukee" has all the ridiculous situations one could wish, and with Sam Bernard, a Milwaukee brewer posing as a duke, as the center of fun-makers, the show was all that one could wish. The girls were pretty, and the three who took the principal parts for women were charming in manner and looks.

The good-natured personality in the acting of Miss Anna Wheaton well deserves its national reputation. The singing was most pleasing, the costumes and scenery of the best, and it was a good show through and through. Manager Ull is to be congratulated upon bringing such a high-class production to Santa Ana.

J. W. Shaul, M. D., eye, ear, nose and throat. Glasses fitted 100% East Fourth St., Santa Ana. Both phones.

THIS COUNTY FIGHT CENTER

Assemblyman Bishop Hopes to Make a Senatorial District of It

Assemblyman Clyde Bishop of Santa Ana, arrived in Sacramento this morning for the special session of the legislature, one of the objects of which will be to re-district the state. Orange County will probably be one of the counties over which there will be a fight. Bishop hopes to be able to have this county named as a senatorial district.

A number of plans of re-districting of the legislature by various meetings of the legislature by various members of that body. The Southern California delegation meeting in Los Angeles a short time ago voted first to favor putting Orange, Riverside and Imperial counties into one district. Bishop fought this measure vigorously, and the conference ended by attaching Imperial to San Diego County and recommending that Orange and Riverside continue, as now, as a senatorial district.

So far as the assembly is concerned Bishop believes Orange County could be made a district, but the senate may not be that way minded.

BUILDING DIKES TO HOLD FLOOD WATERS OF THE RIVER

Los Angeles Times: Of the various projects to protect land and property against spring floods, including the greater plan of a protection district to include the course of the San Gabriel and tributary streams from the mountains to the sea, the one that has made the greatest progress and nearest actual realization is the Newbert Protection District, controlling the Santa Ana river in Orange county.

When the work now under way upon the bought-and-paid-for channel of the Santa Ana river is completed, the river must send its flood waters along a straight path to tidewater at the head of Newport Bay. The work of building a definite water course where there was none is no small task. The protection district two years ago purchased a channel leading from a point northwest of Santa Ana ten and a half miles to tidewater. Temporary dikes were built and served their purpose fairly well.

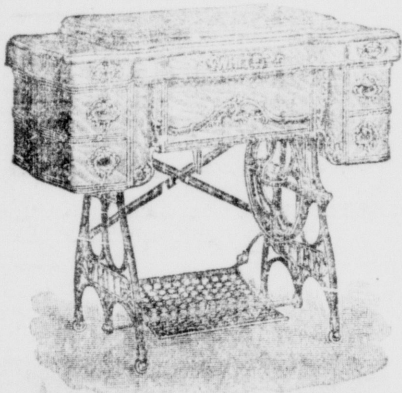

The work of today is of a permanent nature. It is carrying out a plan designed to keep a river dry the year round except during flood-time, forever within bounds. The Newbert Protection District with its river improvements, expects to meet all winters and take care of all floods.

The district comprises some 17,000 acres. Engineer H. Clay Kellogg of Santa Ana, was employed, plans were made for providing a channel, and \$185,000 bonds were voted for harnessing the common enemy. The actual work of building dikes is now under way. On August 26, the giant dredger first began swinging its bucket, and it will be next midsummer before the contract for building the dikes is completed. It may be fall before all of the engineering features planned are carried out.

The control of a river in Southern California offers room for scheming on the part of civil engineers. On approaching the ocean the rivers reach level lands and frequently the river bed is on a level with the surrounding country. All the surface earth within reach of a dredger with which to make embankments is white sand, which is poor stuff for dikes. When the torrent comes down and the current turns against a sand bank the sand bank disappears.

Ever since 1884 Kellogg has been studying the river. He has tried sand-bags, brush, barbed wire entanglement and piles, and out of the abundance of his knowledge of the antics of the torrents he devised the scheme now being put into effect to control the river.

The Plans Northwest of Santa Ana at the point where the Santiago creek turns its flood waters in the river a great dredger is shoveling sand, and gangs of men under Kellogg's foremen are

Buy a WHITE machine, because you can do more kinds of work than any other machine.

JOHN McFADEN, 112-116 East Fifth Street

HILL'S CORNER

213 East Fourth St.

In view of the fact that more school room is needed for the boys and girls that are, a very few years hence, to take our places and do the business that we have thought depended so much on us and that it is proposed to issue bonds to the amount of Two Hundred and Twenty-five Thousand Dollars wherewith to build the necessary school houses, we have been doing a little "figgerin" and we discovered that the tax collector's demand of us Eight Hundred and Eighty-five (\$885.00) Dollars to square our account for the fun of living and working in this glorious "neck of the woods."

Now, then, can we stand the additional burden that will result from the issue of these bonds?

We have turned the question over and examined it on all its sides and while we are well aware that it will materially increase the amount of our taxes we believe the good that will result will over-balance the cost and we will vote for the bonds.

We will then hope that the school board will exercise the "grey matter" that is supposed to be located under their respective hats and give us some buildings that are not only useful but of good proportions and sufficiently ornamental—having some regard to their surroundings.

We don't quite understand how and where the assessor "found the goods" on which the tax collectors base their demands, but knowing that its no use to kick we have dug up the money and will be there on time even though we have to eat the old rooster instead of turkey on next Thanksgiving.

We'll vote for the bonds and then trust in providence like the good old Democrat down here (during war times). He had many misgivings as to his duty. He couldn't vote the Republican ticket and he didn't like the stand his party took on the questions of the time, but finally settled the matter by taking the straight Democratic ticket, closed his eyes and as he dropped it into the ballot box he was heard to say, "May the Lord take care of it."

S. HILL & SON.

SAYS QUININE WILL NOT BREAK A COLD

How to Cure a Bad Cold and End Grippe Misery in a Few Hours

—You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges. Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that here is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

AMUSEMENTS

ANIMAL SHOW COMING

ival of the Famous Hagenbeck to Appear Here

Advance Agent W. K. Peck was in town today making arrangements for the only real wild animal show in the world to give two performances here Wednesday, Dec. 6. In a few days a publicity car will arrive and further advertise this attraction.

It is not the old time circus with many aerial acts, but said to be the biggest and best wild animal show which has ever visited this vicinity. Almost every animal known to the kingdom of wild beasts performs marvelous feats. To gain some idea of its enormity, it takes twenty to thirty length cars to convey them around the country, and acres of canvas to house them. 300 wild and domestic animals, 250 employees, three elephants in the big top, the center of which contains a mammoth steel arena, where all the wild animal acts take place, acres of brilliantly decorated wagons for the street parade and the greatest show, both in educational and amusement value, known to the amusement lovers of the country.

Through the personal supervision of Mr. Barnes, the show is said to be conducted upon the most refined and artistic principles, with the one thought for the safety of the ladies and gentlemen. Mr. Peck states that those who are fond of the very best amusement and the show which has been called by the press of America the most spectacular and thrilling in the world, should not miss this opportunity. There will be two performances, afternoon and evening, with a street parade at 10 a.m.

Live Turkeys at the Bell

Manager Roberts will give free to persons holding the correct numbers on Wednesday night, a live turkey for their Thanksgiving dinner. These turkeys cost the receivers nothing, as all one can pay is the admission price to the Bell, and everyone knows that "Doc's" shows are always worth more than the price.

There will be a complete change of program for the Thanksgiving matinee, Thursday afternoon at 2:30. It will be a Thankful Benefit for Mr. Billy Titchett, the piano player at the Bell. Sunday, Nov. 26, during the terrible wind storm, Billy Titchett was at his home, sitting near a window, when, without any warning, the window was blown in, the glass falling all around "Billy," one large piece falling across one of his hands, severing the tendons and leader of one of his fingers, probably disabling him as a player for life. So Thanksgiving matinee receipts will be turned over to him. You will be doubly repaid if you attend, for you will make Billy and his family thankful on Thanksgiving day.

The big free carnival will be given under the auspices of the Loyal Order of Moose, of Santa Ana, beginning Tuesday, Nov. 28, all week. The Cosmopolitan Show, arrived from Los Angeles with a special train of 16 cars; 7 flat cars with 22 wagons; big 40-horse power electric power house; also the big calliope, which people heard all along the Southern Pacific railroad today. These shows come well recommended by the press of the towns, as moral, clean and up-to-date shows, and the lot will be light as day with over 1000 electric lights.

RID CITY OF TIN CANS

Children of Kansas Town Claim Bounty for Good Work

The boys and girls of Hill City, Kas., have recently cashed in for riding the city of more than 63,000 tin cans and other pieces of scraps. City Marshal Yerkes has been busy getting rid of the rubbish. More than thirty-one large loads have been hauled away, and cleaner conditions prevail.

He hit upon the novel scheme of paying the boys and girls of the city 5 cents for every hundred pieces brought to the wagons from the alleys of the town. A draw runs through the center of the city and has long been known as the "trail of the tin can." Although the name may still stick, the cans have disappeared, and it is no longer used as a place to haul junk.

THANKSGIVING DAY; ITS APPRECIATIONS.

Unthankfulness Is Dangerous. The Thankful Are Blessed.

Pastor Russell Says That All Should Join With the Psalmist David, "Oh, Give Thanks Unto the Lord, For He Is Good; His Mercy Endureth Forever."—Psalm cxxxvi, 1.

NEW HAVEN, Conn., Nov. 26th.—Pastor Russell of the London and Brooklyn Tabernacles preached twice here today. We give a synopsis of his discourse on Thanksgiving from the text above quoted.

With more cause than ever for thankfulness, Christendom is losing the sentiment of gratitude to God, and Thanksgiving Day is to many merely a holiday. In religious matters in general, Christendom is rapidly approaching the conditions prophesied by St. Paul, when men would preserve the form of godliness but deny its power. (1 Timothy iii, 5.) The cause of this the Pastor traced to the increasing intelligence of our day which, along religious lines, has cut loose from the Bible and proportionately cut loose from the true God.

Higher Critics, not content with the rejection of the creeds of the Dark Ages, have attacked the Bible, prejudiced against it by the inconsistencies of the creeds. Thinking to render assistance to humanity and to the Truth, they have for fifty years been quietly and successfully engaged in undermining the faith of Christendom in the Bible as a Divine Revelation. They claim for themselves a similar inspiration to that of the Apostles, while they ridicule the thought that holy Prophets of old spoke and wrote as they were moved by the Holy Spirit of God—II Peter i, 21.

Evolution and Higher Criticism.

Rejecting the Bible as a special Divine Revelation from a personal God, the next step of the Higher Critics was an easy one—to proclaim nature the god and creator of all things—an impersonal god. Thus they were just in line for Darwin's theory of Evolution—that nature is god and work is the law of nature—the survival of the fittest—and the fittest the most pugnacious and overbearing, and selfish and scheming.

Thus we have gradually reached the place where the masses of Christendom doubt the existence of a personal God, and are inclined to believe in a blind, brute force—a nature-god—and to hope that by some process of evolution their children's children, in the far hereafter, may attain to something better than the present; but they see not even the assurance of a future life for themselves, any more than for the brute creation.

Unthankful, Unholy, Covenant-Breakers.

This explains to us why the masses feel little interest in Thanksgiving Day, except as a holiday. They have lost their God—the living and true God—a Heavenly Father. Under these circumstances, declared Pastor Russell, it is not strange that they are unbelievers—that Thanksgiving is becoming a mere formality, that the churches are nearly empty and the prisons overflowing and many of the world pleasure-mad. St. Paul's words, "without God and having no hope in the world," surely fit the majority of Christendom today. These conditions breed the reverse of thankfulness, namely dissatisfaction. Thus we see the world enjoying blessings as never before, and discontented as never before. The opening of the eyes of understanding to the fact that our race is one, and that the blessings of earth belong equally to all, is now coming to men. These are great truths. With this knowledge should come an appreciation of the Divine supervision of the earth's affairs, and a knowledge of the Divine intention to rectify all the inequalities and inequities of the present time in a future Age.

Since the desire of all mankind is happiness, our college men are unphilosophical in proclaiming a theory which is destroying happiness, and which threatens shortly to destroy our civilization through anarchy.

What Unthankfulness Costs.

We may be sure that unthankfulness today will bring upon man, naturally, a great curse—a great calamity. We see it coming! Unbelief in God means more trust in self—means more discontent—means strife to attain the things coveted—means anarchy—means the disruption of our present social system, as the Word of God foretells. (Daniel xii, 1.) Read at your convenience the Apostle's argument on this subject.—Romans i.

The silver lining to the dark cloud is in the Divine promise of rescue, after the world shall have learned a lesson for eternity. The Scriptures assure us that the time of trouble and anarchy will be followed by the establishment of Messiah's glorious Kingdom—the binding of Satan—the letting loose of every good influence and the true knowledge of God—the rising of the Sun of Righteousness with healing in its beams. That glorious time must be waited for.

LOS ANGELES PRODUCE MARKET

No changes in the principal staples of the market, eggs, butter, cheese or potatoes, were recorded. The demand for eggs was very heavy and the market firm. Receipts were only 50 cases.

Butter arrivals were 18,718 pounds. The call for butter was light. There were few offerings on the lower receipts.

Cheese arrivals were 18,092 pounds. This is heavier than the average of receipts of the week and prices were slightly off on large sales.

Only 335 sacks of potatoes were received from the north. The spud market is going to be short this year, according to reports, which accounts for the continued high prices.

One sack of onions was reported in. Where this sack came from was not stated, but the market was strong on the light arrivals.

Bean receipts were 50 sacks. Trading in beans and limas was fair. Sweet potatoes to the number of 57 sacks were reported in. Demand continued heavy.

Apple arrivals were 3410 boxes. The call for apples was steady, with the preference visibly for one of two of the red varieties.

Green and wax beans moved freely. Peas were rather scarce and fresh limas brought an average of 5 cents a pound. Cabbage was plentiful and moved well. New crop lettuce is coming in.

No Exception

Nothing, humanly speaking, is perfect, not even the frights which the fashions make some women look—Puck.

AT THE COURT HOUSE

TO PURCHASE
STEEL CAGE

Supervisor Struck, With Orange, to Buy a Prison Cell

The Board of Supervisors this morning authorized Supervisor Struck to act with the city of Orange in the purchase of a steel cage for a jail at Orange, not to cost over \$300.

The Orange Land & Improvement Co. was given permission to lay a pipeline on the county road at El Modena, to take water to the old Hoyt ranch.

County Assessor Sleeper was given permission to attend the state assessors' convention at San Francisco, expenses up to \$40 to be allowed him.

Case Dismissed

The suit of Carrie Burrows against James D. Burrows was dismissed today, the dismissal being signed by the plaintiff.

Case Appealed

A case taken up on appeal from the justice's court at Orange was filed here today. It is W. M. Boyles against J. B. Handy. It was dismissed in the lower court because judgment had been given in a Los Angeles court upon the same note, one for \$141.

Marriage Licenses

William Michael, 24, and Celia Fisher, 15, both of Laguna Beach; Frank H. Morrill, 45, of Minneapolis, Minn., and Evelyn Avery, 34, of San Francisco; Marion V. Robinson, 30, of Chicago, and Luella E. Townsend, 19, of Fullerton.

Goes to Jury

This afternoon the jury that tried W. F. Riese on a charge of contributing to the delinquency of a minor has the case.

Petition Filed

Millard Wooley today petitioned for letters of administration on the estate of Joseph S. Glenn, who died suddenly on Nov. 22. The estate consists of a lease and farming machinery on the San Joaquin ranch and an interest in a bean crop. The estate is valued at \$10,000. A widow and five children are the heirs. Williams & Rutan are attorneys for the petitioner.

IN THE JUSTICE'S COURT

VALENTINE ZUNIGA
HELD TO ANSWER

Justice Cox today held Valentine Zuniga, ex-convict, to answer for trial in the superior court for sending a revolver bullet through Roman Reyes' cheek at Taibert nine days ago.

Not This County's

Samuel F. Styer, brought to this county from Los Angeles on a charge of non-support of his family, declares that he left his wife when they were living in San Diego. This county may not have jurisdiction. The case may be dismissed when it comes up next Saturday.

Fullerton Fruit Man Is
Mysteriously Missing

Los Angeles Times: Following a general alarm sent out by the police, organized search was begun last night in hopes of finding trace of Abe Pritchard, director of the Farmers' and Merchants' Bank of Fullerton, and one of the wealthiest fruit magnates on the coast, who disappeared Friday on the eve of his marriage with a prominent and wealthy society belle.

The circumstances of his disappearance were such as to lead his friends and business associates to believe that he had met foul play in this city and every clue to the missing man's whereabouts is being followed but thus far without success.

Pritchard left his home in Fullerton on the early train Friday morning with the expressed intention of consummating a business deal with James A. Reid, secretary of the Semi-Tropic Fruit Exchange, after which he expected to attend the performance at the Burbank theater.

That he arrived in Los Angeles at the time indicated has been verified by the detective detailed to investigate, but his movements after leaving the exchange have not been learned.

All the arrangements for his marriage with Miss Bertha Howard, daughter of F. M. Howard, a well-known business man of Fullerton, were almost completed and his friends assert that he even contemplated building a new home for his bride, which was to have been ready when the pair returned from an extended wedding journey.

When last seen in his office at the headquarters of the Placentia Orange

Growers' Association, of which he was secretary, Pritchard appeared in his usual good spirits and informed his associates that his trip to this city would occupy but a few hours and that he expected to return in ample time to eat his dinner with friends in Fullerton. When he failed to put in an appearance at the appointed hour little attention was paid to the incident despite the fact that he was known as a man of exemplary habits and one who rarely failed to keep an engagement.

Saturday and Sunday passed without word from the missing man and after a consultation with his friends it was decided to enlist the aid of the police in the belief that he might have been murdered or otherwise ill-treated.

All of the hospitals and other public institutions in the city were searched last night, but no one could be found who remembered having seen the wealthy fruit man. Today another search will be made and photographs of the missing man will be distributed in an effort to gain some trace of his movements.

Pritchard was about 40 years old and has lived in Fullerton for many years, where he accumulated a large estate, most of which is improved real property and orange lands.

According to a description furnished to the police by C. W. Crandall of Fullerton, a business associate, the missing man was dressed in a dark suit of clothes and wore a black slouch hat when he left his home. He was about five feet seven inches in height and weighed about 190 pounds.

AUTO TRUCK
TURNED OVER

Machine Met With an Accident on the Laguna Road Last Night

An automobile truck driven by Richard Nye, occupied by Nye and a woman passenger, turned over on the Laguna road last night. The truck passed an automobile in which Frank Saunders and Walter Congdon and their wives were riding and had gone 150 yards when it turned over and went through a barbed wire fence. Saunders and Congdon returned. They found the occupants both up and clear of the machine. It is reported today that Nye had a rib broken.

THE INWARDNESS OF PILES

The Cause Is Inside. Use HEMROID, the Inward Remedy

—Inward treatment is the secret of the successful cure for piles. HEMROID, sold by the Rowley Drug Co. and all druggists under a strict money-back guarantee of satisfaction.

HEMROID (sugar-coated tablets) acts inwardly, and lives up circulation of blood in the flabby, swollen parts, curing permanently where selves, etc., only give relief.

HEMROID costs but \$1 for 24 days' medicine. Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

Dean Says

Only Two More Days to Guess on The Weight of the TURKEYS

Two turkeys will be given two best guessers.

A guess with each purchase, large or small. You can make a guess every time you buy anything up to 12 o'clock

WEDNESDAY, NOV. 29TH.

The one who guesses nearest to the live weight of the gobbler will get the gobbler and the one who guesses nearest the live weight of the hen, wins the hen.

See the turkeys in our window, then guess. Try for a turkey, begin today.

Dean's Drug Store

ACQUAINTANCE
TRIP PLANNED

Anaheim Merchants Going Out On Journeys in Surrounding Places

ANAHEIM, Nov. 27.—Another "Howdy" trip and a big "Welcome to Anaheim" night, including a street parade and masquerade, are features the business men of this city are now planning for December.

Anaheim business men have already tried these "Get Acquainted" trips and know that they are appreciated by the surrounding country. During the coming week arrangements for the trip will be taken up vigorously, and on Wednesday, December 6, 100 automobiles, carrying 400 Anaheim business men, will pull out for a tour that will embrace Garden Grove, Westminster, Los Alamitos, Stanton, Buena Park and Fullerton.

Following this trip within a few days, Placentia, Olive, and Orange will be visited. Another day will be spent in a round of the La Habra Valley and the oil fields of this vicinity.

With regard to the street masquerade night, all the citizens of the county will be invited to come in, take possession of the city and make merry to the limit, the date of this event to be December 16. It is believed that several thousand people will respond to this invitation to the first fiesta ever attempted in Orange county.

Orange Report

Shipments of oranges for the holiday market will not be as large as last season by reason of the crop being later, but the Anaheim oranges will nevertheless return to the growers a considerable amount of Christmas money. The orange experts are not yet prepared to make comparisons in the matter of total output of oranges for the coming season, but it is believed that the quantity will be larger. Present market conditions are very satisfactory with reference to price for the new season, and on this score they are not worried.

HOLLY PLANT
RAISES PRICES

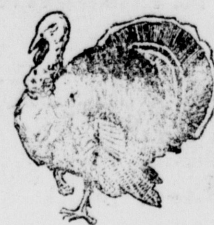

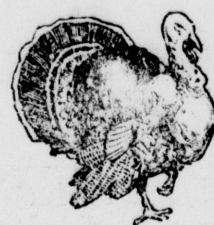

Will Give Twenty-five Cents More Per Ton Than Growers Agreed Upon

HUNTINGTON BEACH, Nov. 27.—The Holly Sugar Company of this city announces today that it will pay 25 cents per ton more for sugar beets than the price of \$5 agreed upon a few weeks ago by all the sugar beet factories of Southern California.

This action on the part of the Holly factory will probably be a bombshell in the ranks of the other factories, as it was thought that they would all adhere to the price fixed when representatives of all the factories met at Los Angeles early this month. That the Holly is not announcing the new price with any intention of changing it later is shown by the fact that it is altering all its contracts and inserting the new price.

The announcement was made Saturday afternoon and the fact, while not yet known to others, will doubtless prove to be one of the sensational features of the strong competition now on between the five factories of this county as well as the American Beet Sugar Company factory at Oxnard, which has acreage in this territory.

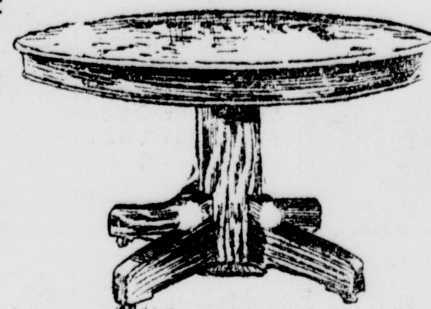

—G. R. West has changed his carpenter shop from 115 East Fifth to 115 West Fifth street.
